

everyday habits. visible impact.

small actions. lasting ripples.

a personal space for sustainable choices,
photo evidence, and environmental progress.

good choices deserve clear feedback.

make it visible

everyday sustainable choices can be
easy to overlook.

make it credible

connect an action to photo evidence
and a consistent estimate.

make it repeatable

bring progress back into view so the
next action feels worthwhile.

one action. a growing record.

log an action

choose a sustainable habit and add a photo.

01 · record

check the evidence

ai reviews whether the photo supports the action.

02 · verify

see your impact

approved actions add points and estimated savings.

03 · build

repeat the choices that fit your life. watch the record grow.

progress, at a glance.

carbon and water savings sit at the heart of
the experience.

your impact, in one place

32 recorded actions.
one growing impact record.

rippl, in motion.

a closer look at how one small action becomes measurable progress.

built around real life.

move differently

public transport and lower-emission journeys.

eat thoughtfully

plant-based choices and less food waste.

use less energy

small changes to everyday energy use.

save water

make conservation part of your routine.

reduce waste

reuse, recycle, and keep materials in circulation.

a reason to keep going.

your next milestone

streaks and badges give consistency a visible shape.

32 actions

12-day streak

shared progress

a community feed and rankings connect personal action to a wider effort.

points with purpose

explore rewards and put earned points toward your next step.

evidence first. clear estimates.

photo evidence

the submitted image supports the claimed action.

ai confidence check

verification helps decide whether an action can be credited.

catalogue-based scoring

recognised actions use fixed points and impact values.

understand the numbers

carbon and water savings are estimates.

their value comes from a consistent record of approved actions over time.

record → evidence → estimated impact

one choice is a beginning

make your next action count.

log it. see it. build on it.
